CORN PLANTING TIME IS HERE

There is an old saying that "When the oak leaves are the size of squirrels' ears it is time to plant corn."

DUST SEED CORN NOW WITH SEMESAN JR.

Make corn a better-paying crop by treating seed with Semesan Jr. It protects against rotting; increases germination; controls seedling blight; prevents crop losses from rots of both root and stalk. And costs less than 2½¢ an acre to use at the new low price! Practical farm use shows it increases yields an average of more than three bushels an acre. Four-oz., 40c; 1-lb., \$1.50; 5-lbs., \$7.00.

Use New Improved Ceresan for wheat; Ceresan for oats, barley, sorghums and cotton; Improved Semesan Bel for potatoes.

That time is here and we have a complete stock of the finest quality seed corn we have had for years, in both the commercial and hand selected grades. Prices are quoted herein and we will be glad to send samples of varieties in which you are interested.

The advancing grain markets will increase the interest in seed corn. Order a stock now.
